

**INVITATION BY VICE CHANCELLOR
SMBB MEDICAL UNIVERSITY, LARKANA**

Prof. Dr. Ghulam Asghar Channa

It gives me immense pleasure to host the 1st Regional Conference of AEME. The Teaching faculty of SMBB Medical University is looking forward to welcome you on this cultural land. The conference will address the current trends in development of the curriculum of Medical Education. Curriculum design is the basic and integral part of education cycle. Life follows the Law of "change" in my opinion the same is reflected in medical education too. Innovative approaches have been adopted and the best evidence-based trends are introduced. Such trends are changing approaches from classical teacher-based class rooms and teaching methodologies to a more learner centered modern class rooms where conventional is blended and integrated with the newer evidence-based one. Such innovations have brought frame-shift change in curricular designing. Ultimately, all good is transferred to the patient care and improvement of health care delivery in community. We, at SMBB Medical University welcome such innovative trends and strive to improve our graduates to a world-class level. I encourage my faculty as well as students to come forward and help us in that regard. Looking forward towards active participation of renowned medical education faculty in this event and welcome the distinguished participants.
